

Course Tools

Course Tools includes only the tools that were added to the course by the designer. If a tool has not been added, it is not accessible by any user.

In the student interface, only tools that are available (not hidden) appear.

A screenshot of the Blackboard Course Tools menu. The menu is divided into two sections: "Course Tools" and "Designer Tools". The "Course Tools" section includes: Course Content, Announcements, Assessments (H), Assignments, Chat (H), Discussions, Learning Modules, Mail, Media Library, Syllabus, Web Links, and Who's Online. The "Designer Tools" section includes: Manage Course, File Manager, and Selective Release. Three callout boxes with arrows point to specific elements: the first points to "Announcements" with the text "Access a tool by clicking it."; the second points to "Chat (H)" with the text "(H) indicates the tool is hidden from students."; the third points to the vertical scrollbar on the right side of the "Course Tools" list with the text "Click to collapse the Course Menu to increase the size of the Home Page." Below the menu, a legend states "(H) = Hidden from Students".
