

eCampus Vista: Modifying Icons

You have great flexibility when it comes to the icons you choose to use in your course. You can choose to replace a:

- content icon set for the entire course.
- default image for a specific tool icon.
- default image for an individual link.

To change the icon set for the entire course:

1. From Manage Course, click **Course Content Icons**. The Course Content Icons screen appears.
2. Click **Select New Content Icon Set**.

3. Choose an icon set from the pop-up window and click **Select**. The set appears in preview mode.
4. Click **Apply**.

To change an icon for a particular tool throughout the entire course:

- From a link's ActionLinks menu, click **Replace Image**. Locate and select the image.
- Click **Apply**. The icon is replaced for that specific course content link throughout the course.
